

BUGLE

Square and Round Dancers of Southwestern Ontario Inc.

Welcome to the NEW On-Line Bugle

What are you going to find? The same wonderful content, submitted by you, the dancer. Your information, event advertising, and ideas are posted to be shared with anyone who has access to the World Wide Web. Not only is it available to Southwestern Ontario, but to anyone in the world!

Features you should know about...

1- The Bugle has been broken down into sections. The front page provides a menu system to quickly take you to a particular point of interest.

The LEFT side	The RIGHT side
will quickly take you to any section of interest in the Bugle - Just Click on the Link	will take you to a similar section, but provides a printer friendly format, without graphics.

2 - All SWOSDA Clubs are listed in the Club News Section

3 - The Club News is listed as in the Roster, "Alphabetical by Town"
(**B**rantford club at the start, **W**indsor club at the end)

4 - The Club Title is a link to the clubs "Personal Web Page". Every club has a web page. The page contains dance location, times, dance level, caller, and club contact. If the club has submitted a Dance Calendar, it is posted on the Personal Web Page. Clicking the Club Title will take you to the Club Personal Web Page.

5 - Monthly Club News is posted as submitted. If no club news is submitted, a club title (link) is shown only.

Sometimes change is good

I know some of you would prefer to have the Bugle delivered to you, but "the times they are a changing". We'd like to thank Lee & Sharon Cox for their many years as Bugle Editors; they have done a great job, and now are taking a well deserved rest.

Many of you indicated that you could print out part, or all of the Bugle for your club. For that reason, a printer friendly version has been provided. It is hoped that you will follow through on that statement and provide some extra copies for those without Internet Access.

Hopefully the Bugle will continue to be a positive reading experience, and I look forward to your [comments](#)
